Checkpoint-specific computation; target used only in training/evaluation
Observation d
1056 samples
Complex Morlet CWT
modulus + phase
2 x 16 x 264
Temporal / scale mixing
Convolution + projection
8 x 32 x 64
Residual refinement
d, base prediction, mask, time
25,489 trainable parameters
Reconstructed waveform
Normalize / db4 subbands
8 x 1056
Patch: 8 x 32 x 64
Add branch features
Embedding + Conv2d
16 attention blocks
MLP / patch map
Overlap average / subband sum
Conv1d / restore scale
Frozen original DGF
